Social Media Marketing Assessment

Section A

1. What is Social Media Marketing?

Social Media Marketing (SMM) is the process of promoting a business, brand, product, or service through social media platforms such as Instagram, Facebook, YouTube, and LinkedIn. Its main goals are to increase brand awareness, attract customers, generate leads, and boost sales.

Example: A clothing brand like RS Boutique posts fashion reels and product photos on Instagram to attract customers and increase sales.

2. Define Content Pillars with an Example.

Content pillars are the main topics or categories around which a brand regularly creates and publishes content. They help maintain consistency and keep the audience interested.

Example: For a fashion brand, the content pillars can be:

- Educational: Fashion tips and styling guides.
- Promotional: Product launches, offers, and discounts.
- Engagement: Polls, quizzes, and questions.
- Inspirational: Outfit ideas and fashion trends.

3. What is the Difference Between Reach, Impressions & Engagement?

Metric	Meaning	Example
Reach	The number of unique people who see a post.	500 people see a post.
Impressions	The total number of times a post is displayed, including repeat views.	A post is displayed 800 times.
Engagement	The interactions people make with a post, such as likes, comments, shares, and saves.	The post receives 100 interactions.

In short: Reach measures people, impressions measure views, and engagement measures interactions.

4. What is a Content Calendar? Why is it Important?

A content calendar is a schedule that organizes social media content by date, platform, content type, and topic.

Importance:

- Maintains consistency in posting.
- Helps plan content in advance.
- Saves time and reduces last-minute work.
- Supports festivals, events, and promotional campaigns.
- Helps track content performance and improve strategy.

Example: A café plans to post a menu photo on Monday, a food reel on Wednesday, and a customer review on Friday.

5. What is Hashtag Strategy?

A hashtag strategy is the planned use of relevant hashtags in social media posts to improve content discoverability, reach the target audience, and increase engagement.

Example: A fashion brand promoting ethnic wear might use:

```
#EthnicWear #IndianFashion #FashionTrends #TraditionalOutfits #RSBoutique
```

Key points of a good hashtag strategy:

- Use hashtags relevant to the post.
- Combine popular, niche, and branded hashtags.
- Research hashtags related to the target audience.
- Avoid irrelevant or excessive hashtags.
- Test different hashtags and track their performance.

Competitor comparison and recommendations

Research factor	What to check	Recommendation for RS Boutique
Followers	Current followers on each	Track monthly follower growth.

	Instagram profile	
Posting frequency	Posts and reels published over the last 30 days	Aim for 4–5 feed posts weekly and regular Stories.
Content type	Reels, carousels, static posts, and Stories	Prioritize styling reels, product carousels, and customer reviews.
Strengths	Visual quality, branding, offers, and audience interaction	Develop a recognizable style and showcase products clearly.
Improvements	Gaps in engagement, product information, and CTAs	Respond to DMs, add clear calls to action, and test different content formats.

Conclusion: RS Boutique can compete by creating engaging fashion reels, maintaining a consistent posting schedule, optimizing its profile, and building customer trust through reviews and styling content.

Research note: The competitor follower counts and posting frequencies have not been verified live, so they should be checked directly on the three Instagram profiles before submitting this assignment as current competitor research.
